

### find efficiency killers in your organization

Multi Moment Analysis (MMA) is the statistical technique for determining the proportion of time spent by workers in various defined categories of activity. It permits quick analysis, recognition, and enhancement of job responsibilities, tasks, performance competencies and organizational work flows.

### use the toolset to measure your processes

With MMA you can get an accurate picture of the activities and the time spent on individual activities by your staff. Based on these results you can make the right decisions as to which processes need to be optimized and understand what results are to be expected.

### receive meaningful statistics about your efficiency

MMA analysis provides you with meaningful charts, which show the efficiency killer within your defined processes.

### mobile device

Just answer the simple question: "What are you doing now?" and answer it by selecting the right process and step.

### web client

A browser based web client is available for participants who are desk based or in areas where mobile devices are not allowed.
